

FALKIRK ARCHIVES

Records of Businesses

Machinery, Equipment & Tools Manufacturers Finding Aid

Antermony Pumping Co

These items were acquired along with an oil engine which came from Antermony Loch Reservoir water pumping station at Milton of Campsie.

Related object in Falkirk Museums: FALKM 1978-359

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A046.01	1963	"Antermony Pumping Book". Contains daily record of running time and number of gallons pumped.
A046.02	1968	BS539:1968 Specification for dimensions of fittings for use with clay drain and sewer pipes

Automatic Knitting Machine Co Ltd

This item was acquired as the instruction manual for knitting machines in Falkirk Museums object collections.

Related object in Falkirk Museums: knitting machines, FALKM 1976-10

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A662.001	(Circa 1900)	Instruction book for "ordering" and "companel" automatic knitting machines. (See 1976-10 knitting machines)

Bamfords' Farm Machinery

Bamfords were farm machinery suppliers operating nationwide. This item was acquired along with objects in Falkirk Museums collections.

Related object: mower FALKM 1986-119

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A321.001	Dec 1955	List No BT 1735: Spare parts list for Bamford's 7RTC and 7RTX tractor trailer mowers (see 1986-119)

W Canning & Co

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A219.002	Dec 1913	Catalogue No 1916: Machinery appliances, chemicals and materials for electro-plating, polishing, laquering, enamelling, bronzing
A219.001	Dec 1913	Catalogue No 1916 Machinery appliances, chemicals and materials for electro plating, polishing, lacquering, enamelling, bronzing

Dempster, Moore & Co

Dempster, Moore & Co, Engineers and Machinists were established in 1873. The registered office was at 43 Robertson St, Glasgow but they also had works in High Bonnybridge. The company was taken over by Rollo Industries. Product catalogues were acquired when the works were closed, including a range of product catalogues from other firms which have been passed on to the relevant local archives or museum.

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A342.001	(Early 20th Century)	Product catalogue pages 1-52 (incomplete set) advertising lathes. Includes extra powerful double-gearred sliding, surfacing, and screw-cutting gap-bed lathe (1), heavy cutting high-speed lathe (2), 8½ in. heavy cutting high-speed lathe (2B), sliding, surfacing and screw-cutting lathes (6) two geared high speed screw cutting lathes (7).self-acting sliding, surfacing and screw-cutting lathes, high-speed Government pattern (8), heavy marine shafting lathe (9) self-acting, sliding, surfacing and screw-cutting lathes, regular pattern (11) self-acting, sliding, surfacing and screw-cutting lathes, regular pattern, 10½ - 14½ in (12) all geared high speed screw cutting lathes (13) self-acting treble-gearred break lathes (16), high-speed, all-gearred break lathes (17), self-acting sliding, surfacing, and screw-cutting tramcar wheel lathes (18) direct electrically-drive car wheel lathes (19) duplex railway wheel lathes (20), all gear belt or motor driven lathe (24) self-acting sliding, surfacing, and screw-cutting lathes for foot treadle or power drive (25) brassfinisher's capstan chasing lathes (26) hand turning lathe single or double geared (27) combined shafting rest and stay and madril or arbour press (28) self acting, sliding, surfacing and screw-cutting, shafting lathe (29), . turret lathes (32) all geared turret lathes (33) high speed duplex axle turning lathe (34) spiral self centring chucks, self centring scroll chucks, self centring and independent combination locks and independent four jaw chucks. (35) for pillar drilling machines for hand or power drive (42) Anglo American pillar drilling machine (45) self acting, sliding surfacing and screw-cutting lathe (48) double or treble geared surfacing lathe (52)
A342.002	(Early 20th Century)	Product catalogue pages 53-98 (incomplete set) advertising boring mills,screw and nut-tapping machines. Includes low base radial drilling machines. (53), 37in and 42in boring and turning mills with swivel heads (54) 30in double boring and turning mill

- with swivel turret heads. (55) 30 in boring and turning mill with swivel turret head. (56) double boring and turning mill with turret heads. (57) direct electronically driven duplex pipe boring and turning lathe. (58) duplex horizontal pipe flange facing and turning lathe. (60) powerful universal facing and boring machines. (62) horizontal facing and boring machines. (63) gear driven sensitive drilling machines. (64B) boring and turning mills. (65) new type vertical drilling machine. (66) plain milling machines. (68) bolt screwing and nut tapping machine. (76) automatic key seating machines. (84) 6 in stroke slotting machine. (85) improved self acting slotting machine with balanced ram. (87) self acting slotting machines. (89) tube and bolt screwing machine. (90A) instant release bolt or tube screwing machines. (91) hand and power screwing and nut tapping machine for screwing bolts or tubes. (92) high speed bolt screwing and nut tapping machines. (97) duplex bolt screwing machines. (98)
- A342.003 (Early 20th Century) Product catalogue pages 101-149 (incomplete set) advertising grinders, hammers and planers. Includes wrought steel double column steam hammers (101) patent pneumatic planishing hammers. (105) hydraulic wheel presses. (106) improved hydraulic wheel presses. (107) tyre angle and tee bending machine. (111) single ended punching or shearing machines. (114) lever and cam punching and shearing machine. (117) plate bending machines (120) heavy horizontal plate bending rolls. (123) flattening and straightening machines with seven rollers. (124) horizontal punching and beam bending machine with double angle iron shears on one side. (129) for 22 in cold sawing machine and cold iron sawing machine. (132) Anglo American rack driven shaping machine. (133) Anglo American shaping machine. (134) 32in vertical sawing machine. (136) bench emery girders and 14in west emery tool grinder. (137) 30 in vertical cold sawing machine. (140) emery tool grinders. (141) new type bolt screwing and nut tapping machine. (142) double wheel emery girders and double wheel emery grinders with surface table and guard. (143) combined fettling and surfacing machine (146) disc grinding machine. (147) twist drill grinders (148) combined twist drill and tool grinding machine. (149)
- A342.004 (Early 20th Century) Product catalogue pages 151-188 (incomplete set) advertising saw benches and frames, planing, moulding and other machines. Includes improved rack circular saw bench. (151) vertical saw frame overdriven type. (153) circular cutter machine. (157) automatic feed circular saw bench. (159) band sawing machines. (161) surface planing jointing and thicknessing machines (165) planing and moulding machines. (166) double ended beam bending or angle iron bending or straightening machine. (167) tenoning machines. (168) combined horizontal and vertical punching and double angle iron cutting machine. (169) horizontal punching and beam bending machine with single angle iron shears. (170) wood boring machine to bolt to wall or pillar and horizontal slot boring and mortising machine. (170) improved self acting plate edged planing machine. (172) hand mortising and boring machine. (175) improved plate bending machine. (176) cold iron sawing machines. (186) lever feed cold sawing machine. (187) cold iron sawing machine. (188)
- A342.005 (Early 20th Century) Product catalogue pages 201-269 (incomplete set) advertising

	Century)	riveters, presses planers and other machines. Includes patent automatic lifter and drop hammer. (202) patent belt driven forging hammer. (202A) patent pneumatic forging hammer. (203) hydraulic wheel press. (230 heavy portable riveter bear type, heavy fixed riveter bear type and hydraulic fixed riveter built up type. (232) hydraulic portable riveters. (233) hydraulic portable riveter, hydraulic portable riveter hinged type and boiler front and seam riveter. (234) hydraulic forging and welding press, three throe hydraulic pressure pump and hydraulic accumulators. (235) band sawing machine. (251) vertical spindle moulding machine. (252 hand planing and jointing machine. (253) panel planing and thicknessing machine with or without side cutters. (254) surface planing jointing and thicknessing machine. (255 four cutter moulding and planning machine. (256) four cutter moulding and planing machine. (257) grinding machine knives patternmakers joiners and woodworkers tools and grindstones. (266)
A342.006	(Early 20th Century)	Product catalogue pages 25-172 (incomplete set) advertising lathes and other machines. Includes self-acting sliding, surfacing, and screw-cutting lathes for foot treadle or power drive (25), double boring and turning mill (55), boring and turning mill (56) Anglo-American rack driven shaping machine (133) Anglo-American shaping machine (134) emery wheel grinders (143) combined horizontal and vertical punching and double-angle iron cutting making (169), improved self-acting plate edge planning machine (172)
A342.007	(Early 20th Century)	Product catalogue (French language version) pages advertising lathes, drill presses and other machinery. Incomplete set, pp5-48. Includes Tours Automatiques à Charioter, à Surfacer et à Fileter, 165 -190 m/m. (5) Tours Automatiques à Charioter, à Surfacer et à Fileter, 215 – 266 m/m (6) Tours Automatiques à Charioter, à Surfacer et à Fileter, 266 – 368 m/m (7) Tours Automatiques à Charioter, à Surfacer et à Fileter, Type Regular, 165 – 266 m/m. (8) Tours Automatiques à Charioter, à Surfacer et à Fileter, Type Regular, 266 – 470 m/m. (9) Tours à Haute Vitesse (11) Tour-Revolver (15) Mandrins (16) radials a percer et a tarauder a grande vitesse (21) aleser et fraiser horizontale (22) Étau-limeurs Double Automatiques (29) Tours à plateau horizontal (30) Machine pour le filetage de boulons et le taraudage d'écrous (33) Marteaux-Pilons à vapeur (34) Poinçonneuses et cisailleuses doubles, avec lames à cornières (39) Machine à rouler et à cintrer les tôles (40) Machine à affûter les outils. (45) Scie verticale alternative à commande supérieure (46) Scie horizontale à ruban pour grumes (47) Scie circulaire avec chariot automatique (48)
A342.008	(Early 20th Century)	Product catalogue pages 8-208A (incomplete set) advertising steam engines, cranes and other machinery. Includes improved vertical steam engine. (8), Cornish steam boiler (22), Lancashire steam boiler (23), overhead travelling crane, (45) patent emery grinders and patent universal emery grinders. (141), hand travelling crane. (158) portable steam crane. (163) overhead travelling crane with rolled steel beams. (168), double girder overhead traveller (169) colonial double cylinder hauling and winding engine with link motion reversing gear. (177) double cylinder geared winding engine (178), improved centrifugal pump (201), improved centrifugal pum (202) direct-acting vertical centrifugal pump and engine (203) emery grinding machines.

- (208A)
- A342.009 (Early 20th Century) Product catalogue pages 9-183 (incomplete set) advertising cranes, pumps and other machinery. Includes Improved Weston's differential pulley blocks (9). overhead travelling runners (10) rope and chain pulley blocks (13) wrought iron warehouse cranes (24) duplex and screw punching bears (32) hydraulic punching bears (33) tripod boiler prover and boiler prover on barrow (37) colonial lift and force pumps and standard lift and force pumps (41) improved ship's fire engine and patent portable direct-acting hydraulic test pump (45) improved rotary barrel force pump (46) syphonia steam trap (52) syphonia steam trap class B and class C (53) Heintz steam traps (54) improved iron stop valves no. 2 and no. 5 (56). improved stop check valves no. 7 and no. 7g (59) improved check valves for no. 8 and no. 8g.(60) gun metal gauge cocks (84) best stocks and dies and tap wrenches (117) Whitworth's pattern guide screw stocks and dies (118) stocks and dies, screw tools and taps (120) emery wheels (124) drilling pillars, tube wrenches, tube cutters, improved pipe wrenches and cutters (132) spanners and lathe carriers (139) saws and planes (142) hammers, hatchets and gimlets (143) solid cast steel hammers (147) headed steel keys (153) patent malleable cast oil feeders, lamps and torches (158) foundry brushes, hair brushes and bass brooms (161) patent tubular barrows (174) ships' blocks (183)
- A342.010 (Early 20th Century) Product catalogue pages 7-179 (incomplete set) advertising pulleys, cranes and machine and hand tools. Includes Moore's differential pulley blocks (7), yale triplex block (8) malleable iron wire rope pulley blocks. (9) wire rope pulley blocks. (11) rope and chain pulley blocks. (13) overhead travelling carriages for use with pulley blocks. (14) rope and chain pulley blocks various. (15) London pattern wrought iron pulley blocks (16) overhead travelling carriages. (20) patent ball bearing trolleys (22) rolled steel joist runway (23) improved wire rope hoisting crabs. (25) wrought iron jib crane. (29) hoisting wire ropes (30) rail benders of jim crows (35), rail lifting jacks (36) screw rail straightener. (37) handy punching bear. (40) patent portable direct-acting hydraulic test pump. (42) colonial lift and force pumps. (45) centrifugal pumps and rotary gear pumps. (48) ship's fire engine and all brass Downton pump. (49) syphonia steam trap (53) improved iron stop valve No 2 & No 5 (56) improved check valve no. 215 and no. 214. (59) engine counters. (65) thermometers and salinometers, and Lievain's patent needle lubricators. (67) gun metal siphon oil cups (72) sight-feed lubricators (75) patent drop-feed oil cup (76) gun metal water gauge cocks. (78) asbestos packed water gauges (79) self-feeding dudgeon roller tube expanders. (92) improved double blast circular bellows and smiths' long shape bellows (97) smiths' hearths etc. (100) tube cleaners, brushes and ferrules (101) angle plates (104) surface plates and setting-out plates (105) hand shearing machines. (108) Whitworth's pattern guide screw stocks and dies. (112) standard cylindrical gauges (115) best stocks and dies for engineers' use (116) drill chucks. (119) emery wheels. (120) emery wheel dressers (122) spanners etc and double pawl reversible ratchet brace. (127) ratchet braces etc. (128) pliers. (132) clamps (133) coach or screw wrenches (137) spanners and

		lathe carriers (139) spades and shovels (141) bolts and nuts (144) pointed iron wood screws. (148) machine screws (150) strong cast iron pulleys. (155) patent compression flange couplings, and safety collars, solid and split. (158) universal joint couplings, claw clutch couplings and patent friction clutches and couplings. (159) Jackson's patent belt fasteners. (161) weighing machines. (162) screws (167) malleable-cast oil feeders, lamps and torches. (168) chains and chain cable. (172) rolled girders (179)
A342.011	(Early 20th Century)	Product catalogue pages 20-185 (incomplete set) advertising barrows, winches, jacks, chains, anchors and tools. Includes crab winches. (20), lifting jacks (29), screw lifting and traversing jacks. (32) screw lifting jacks. (33) Ramsbottom's piston rings and best cast steel valve springs. (67), improved blacksmiths' hearths and connections (108) plain steel keys. (152) bond adjustable ball and socket Plummer block and the bond rigid ring oiling Plummer block. (157) patent malleable cast oil feeders lamps and torches. (158) Denison suspended weighter and the suspended hydrostatic weighing machine.(163) hand trucks, Samson truck and strong box bogie. (166) improved wrought iron split pulleys. (171) chains and chain cables (172) patent tubular barrows (174) ships blocks (183) anchors (185)
A342.012	(Early 20th Century)	Product catalogue pages 27-28 (incomplete set) advertising hand turning lathe, mandril or arbor press and combined resting shaft and stay
A342.013	(Early 20th Century)	Product catalogue pages 3-202B (incomplete set) advertising lathes, presses and other machines. Includes 8½ in. by 8 ft 0 in. Government pattern screw-cutting lathe (5) 12½ in. Premier self-acting sliding, surfacing and screw-cutting lathe (6c) improved surfacing and boring lathe (9) treble-gearred surfacing lathe (52) patent screwing machine (93A) instant release screwing machines (94A) shapers (133A) two belt-driven power hammers (no. 2 size and no. 3 size) (202B)
A342.014	(Early 20th Century)	Product catalogue pages (not numbered) advertising lathe and drilling machine
A342.015	(Early 20th Century)	Product catalogue pages (not numbered) advertising drilling machine, twist drill grinder, Anglo-Americal shaping machine and self-sustaining screw pulley block
A342.016	(Early 20th Century)	Product catalogue pages (not numbered) advertising 8 inch mascot veebed gap lathe and Master 6 inch vee bed gap lathe
A342.017	(Early 20th Century)	Advert for bolt screwing and nut tapping machine.
A342.018	(Early 20th Century)	Product adverts for column drills Nos 1, P2, P4, P7 and ball bearing grinding machines
A342.019	(Early 20th Century)	Product adverts for milling machines, Nos 1, 1a, 2, No 16 (pillar), No 2 (vertical)
A342.020	(Early 20th Century)	Product adverts for drilling machines
A342.021	(Early 20th Century)	Advert for planing machines
A342.022	(Early 20th Century)	Adverts for pulley blocks and lifting tackle
A342.023	(Early 20th Century)	Adverts for Demos No 1 anti-friction metal
A342.024	(Early 20th Century)	Adverts for Pratt chucks

A342.025	(Early 20th Century)	Advert for "schnell drehbanke fur schwere schnitte" . German language advert for machine
A342.026	(Early 20th Century)	Series of adverts for pipe and bolt screwing machines. Includes LR type sizes 1.25", 1.5" & 2", LR type sizes 3", 4" & 6", LR type sizes 3" & 4", LR type sizes 6" & 8", SY type, G type and automatic bolt screwing machine
A342.027	(Early 20th Century)	Product catalogue for grinding machinery and machine tools
A342.028	(Early 20th Century)	Blueprints for motor drilling machine and pipe bender with former blocks
A342.029	1929	Flyer for Leipzig Autumn fair beginning August 25th 1929. Red logo in centre with gold box around it and orange border
A342.030	Early 20th Century	Business card advertising Dempster Moore & Co Ltd St Andrew's Works, Glasgow. Small white card with illustration of a machine. Representative KR Pearson & Son, 32 Victoria Street, London.
A342.031	Early 20th Century	Carbon copies of circular covering letter for French language product catalogue
A975.001	1897	Supplies book. Contains technical details and dimensions of machinery, parts, oils and other supplies Front cover annotated "John M Dempster, 1897"
A975.002	1925	Supplies book. Contains technical details and dimensions of machinery, parts, oils and other supplies Front cover annotated "Dempster, Moore & Co, 1925"
A975.003	1900-1902	Order book
A975.004	1933-1935	Customer order book
A975.005	1876-1880	Cash book
A975.006	1934-1936	Cash book
A975.007	1920s	Samples of test certificates for equipment made by and receipts for test certificates
A975.008/01	Unknown	Drawing of unidentified machinery
A975.008/02	Unknown	Blueprint of gap bed lathe
A975.009	(1920s)	Advertising leaflet for the horizontal portable hand drilling machine

Joseph Evans & Sons (Wolverhampton) Ltd

Joseph Evans & Sons was a machinery company based in Wolverhampton, England.

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A264.01	1924	Photocopy of Catalogue: Pumps and Pumping Machinery

Field & Allen

Retail company, selling products of Walker, Hunter & Co. The Company was incorporated in 1904 with the registration number SC005588. It went into liquidation in 1908 and dissolved in 1913.

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A198.001	Feb 1903	Catalogue of cooking apparatus, ranges, registers etc. Includes illustrations of "Artisan", "Portdownie" and "Simplex", trade names of Walker, Hunter & Co., Camelon

J Halden & Co Ltd

Engineering tools and equipment manufacturer

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A048.02	1910	Catalogue of engineering tools and equipment

Harding & Sons

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A151.003	Feb 1885	Price list of nails, screws, bolts, nuts & c.

W.B. Henderson Ltd

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A449.01	1930s	Photocopy of advertising brochure for W.B. Henderson Ltd, File manufacturers and Re-cutters

Alfred Herbert Ltd

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A668.027	(Mid 20th Century)	Catalogue No 15: Small tools, machine shop accessories and measuring equipment
A1096.001	May 1952	Catalogue Sheet No Y1734 (12th edition) : Turret Lathe Tools

J & R Howie Ltd

Manufacturer of agricultural equipment

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A194.001	(1960s)	Catalogue: includes pipes, agricultural feeding dishes, tiles, ventilators, chimney cans and vases.

Machine Tool Co Ltd

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A887.007	(Mid 20th Century)	Catalogue : Machine tools

Merer Ltd

Manufacturer of mining and quarrying equipment

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
P12538		Crushing machine
P12540		Crushing machine
P12539		Crushing machine
P12542		Quarry
P12541	Circa 1960	Crushing machine
A093.001	(1960s)	Series of advertising leaflets for Merer extraction equipment.
A600.004	(1960s)	Leaflet: Merer conveyors
A093.002	(1960s)	Series of photographs of Merer products. (No further information : not added to photo collection)

Robert Miller (Denny) Ltd

Manufacturer of poultry and farming equipment

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A199.001	1936	Photocopy of Miller's Poultry Appliances and Houses Complete Catalogue

Herbert Morris Ltd

Mobile crane manufacturer, Loughborough, Leicestershire

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A385.01	1949	Instruction booklet "Morris mobile cranes operation and maintenance" (Morris mobile crane in collection)

George Paul & Co Ltd

George Paul & Co founded in 1901 by George Paul at Duncarron Foundry. Made heavy engineering castings and farm machinery. Closed in 1978.

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A029.001	(Early 20th Century)	Leaflet: "Champion" automatic drinking bowls

Scottish Enamelling Co

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A137.001	16 Jul 1940	Photograph copy of design plans for radial type shells, used at the shadow shell factory, Larbert
A137.002	16 Jul 1940	Design plans for munitions shells, used at the shadow shell factory, Larbert
A137.003	1941	Blueprints for munitions shells, used at the shadow shell factory, Larbert

Sharp & Sons Ltd

Sharp & Sons were engineers and machine makers, based at Camelon Engineering Works, Falkirk. The Company was incorporated in 1909 with the registration number SC007020, and was dissolved in 1972. The works were taken over by the Falkirk Brass and Sanitary Engineering Co

<i>Reference No</i>	<i>Date</i>	<i>Description</i>
A252.007/01	1890s	Customer Order Book. Includes diagrams of items ordered from Sharp & Sons Ltd.
A252.007/02	1898	Customer Order Book.
A252.001/01	Jul 1899-May 1900	Time Book. Record of hours worked by named individual employees on contracts for named customers
A252.011/01	Nov 1900-Sep 1901	Supplies Order Book.
A252.007/03	Feb 1903-Mar 1903	Customer Order Book.
A252.007/04	Jan 1906-Jun 1906	Customer Order Book.
A252.006/01	Apr 1906-Sep 1906	Despatch book. Contains note of items despatched to named customers
A252.007/05	Jun 1906-Sep 1906	Customer Order Book.
A252.007/06	Sep 1906-Jan 1907	Customer Order Book.
A252.007/07	Jan 1907-May 1907	Customer Order Book.
A252.007/08	May 1907-Sep 1907	Customer Order Book.
A252.007/09	Sep 1907-Jan 1908	Customer Order Book.
A252.007/10	Jan 1908-Mar 1908	Customer Order Book.
A252.006/02	Feb 1908-May 1908	Despatch book.
A252.007/11	Mar 1908-Jul 1908	Customer Order Book.
A252.006/03	Sep 1908-Jan 1909	Despatch book.
A252.015/01	1909-1916	Letter book. Contains mainly business letters relating to problems with customer orders
A252.007/12	Feb 1909-May 1909	Customer Order Book.
A252.006/04	May 1909-Aug 1909	Despatch book.
A252.007/13	Jul 1909-Sep 1909	Customer Order Book.
A252.007/14	Sep 1909-Dec 1909	Customer Order Book.
A252.006/05	Dec 1909-Mar 1910	Despatch book.
A252.007/15	Apr 1910-Aug 1910	Customer Order Book.
A252.006/06	Jun 1910-Sep 1910	Despatch book.
A252.007/16	Aug 1910-Dec 1910	Customer Order Book.
A252.006/07	Sep 1910-Dec 1910	Despatch book.
A252.007/17	Dec 1910-Apr 1911	Customer Order Book.
A252.011/02	Jan 1911-Jan 1912	Supplies Order Book.
A252.001/02	Apr 1911-Jul 1912	Time Book. Record of hours worked by named individual employees on contracts for named customers
A252.007/18	Apr 1911-Sep 1911	Customer Order Book.
A252.007/19	Sep 1911-Dec 1911	Customer Order Book.
A252.007/20	Dec 1911-May 1912	Customer Order Book.
A252.011/03	Feb 1912-Dec 1912	Supplies Order Book.
A252.007/21	May 1912-Sep 1912	Customer Order Book.
A252.007/22	Sep 1912-Dec 1912	Customer Order Book.
