Falkirk District Council Finding Aid (6)

Housing Department

The finding aid for the records of Falkirk District Council has been divided into 7 parts. This part contains a list of the records of housing.

From 1890 successive legislation gave local authorities responsibilities to build and rent housing. In 1975 responsibility for housing was transferred to the District Councils. The Housing Department dealt with tenancies, repairs and maintenance of Council housing, planning of new housing schemes and management of the Council's housing stock.
